

Cattle Feedlot Fullfeed Finisher Pellet

Why choose to feed Cattle Feedlot Fullfeed Finisher Pellet?

A complete feedlot ration containing all the fibre and protein required in a pellet for feedlot or supplementary feeding. The pellets run easily through feeders or sit well in troughs. The pelletizing process reduces dust and maximizes the animal's consumption. No mixing, measuring or time consuming labour required, fill your feeder and walk away. Rumen buffer added for acidosis minimization.

**Available in :-
30kg bags

Manganese	25 mg/kg
Zinc	25 mg/kg
Cobalt	0.2 mg/kg
Iron	25 mg/kg
Iodine	0.3 mg/kg
Selenium	0.15 mg/kg

**Eskalin can be added with an S4 Vet script.
This product contains Monensin and Urea.**

Cattle	Feeding Rate
Penned Stock	2.5% to 3% of body weight as finishing feed when penned with self feeders or troughs.
Paddocked Stock	1% of body weight in feeders as a finishing feed. Intake will vary depending on quality of feed available in the paddock.
Drought Feeding	1% of body weight for maintain existing weight

This product is suitable for cattle only. The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of cattle will give different results. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually, as unobserved diet changes can be detrimental to the final results and/or the animals health.
