

# **Hi Sulphur 12%**

**Protein is available in Sorghum with Sulphur supplementation.**

## **Properties:**

Grain sorghums and sweet grazing sorghums are generally higher in prussic acid levels than other varieties. Regrowth or new growth are particularly high and can cause cyanide poisoning of grazing stock. Sulphur blocks play a vital role in detoxification of cyanide as it releases a digestive process. The sulphur can actually stimulate the gut and increase daily weight gain.

## **Ingredients:**

Salt, Molasses, Lime, Mono di calcium phosphate and Flours of sulphur.

<b>NUTRIENT ANALYSIS</b>	
Salt Max	67.5%
Sulphur	12.5%
Calcium	10.0%

# **20kg Block**

**(Hard pressed)**

## **Recommended feeding based on 1 block per number of head**

<b>Number of Sheep</b>	<b>Number of Cattle</b>	<b>Number of days</b>
70	10	28

The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. This product is suitable for ruminants only and not recommended for other animals. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health.
