

LACTOMAX - WITH COPPER

20kg
(Hard pressed)

Ingredients: Salt, Molasses, Cobalt Sulphate, Copper Potassium Iodide, Sulphur, Ferrous Sulphate, Bentonite, Vegetable/Protein Meal, Lime and Zinc Oxide.

LACTOMAX - WITH COPPER -

Nutrition from by-pass protein and minerals essential for both cattle and sheep.

A block designed for lactating cows and ewes whether at the end of pregnancy or with calves or lambs at foot to provide a nutritional variety inclusive of by-pass protein.

Copper is optional and a warning is given to dairy cows when milk iodine is high, this symptom is usual with low milk production.

NUTRIENT ANALYSIS

Sodium Chloride (NaCl) Max	35.0%

Recommended feeding based on 1 block per number of head
Use when stock are two thirds into pregnancy

Number of Sheep	Number of Cattle	Number of Days
50	10	28

The above feeding rates are a guide only. Variances due to pasture quality, climate, workload and age of the animal will give different results. This product is suitable for ruminants only and not recommended for other animals. Please use the feeding table as a guide only and ensure feeding guide is introduced gradually to all animals, as unobserved diet changes can be detrimental to final results or the animals health.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL
